EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In Paragraph [Para 1] on the first page of the specification, the phrase --now U.S. Patent No. 6,668,935,-- has been inserted after "September 21, 2000,--.

2. The following is an examiner's statement of reasons for allowance: All of the independent claims require the limitation that the harder material of the primary seat and secondary seat of the sealing device has a hardness of at least 1200 knoops. Neither the primary seat nor secondary seat of the seals of Conrad '323 or Wong '683 have such a hardness. It would not have been obvious to make the steel rings 51-52 of Conrad '323 or back-up ring 34 of Wong '683 of a material having a hardness at least 1200 knoops as claimed since their intended function of resisting extrusion of the elastomeric seal clearly does not require a material having such a hardness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
